Create autostart launcher

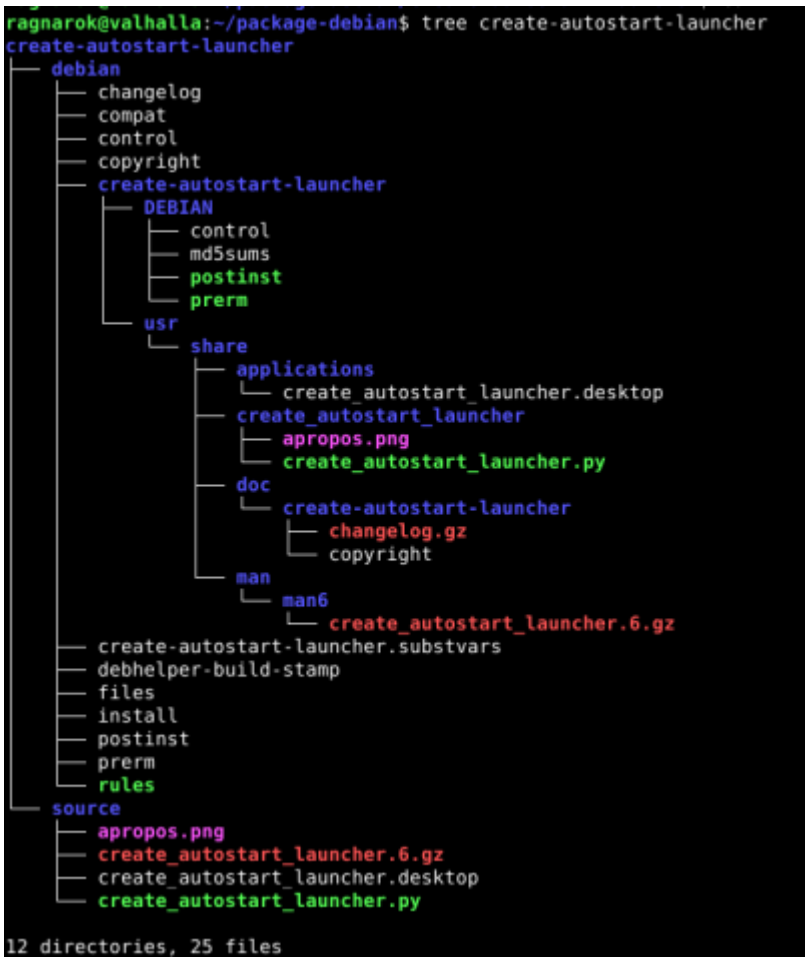
Un utilitaire **python / GTK** afin de créer un script de démarrage automatique suite à une connexion au gestionnaire X.

Fonctionne quelque soit le **Display Manager**.

Dépendances requises

python3, python3-gi, python3-pil

Modification système



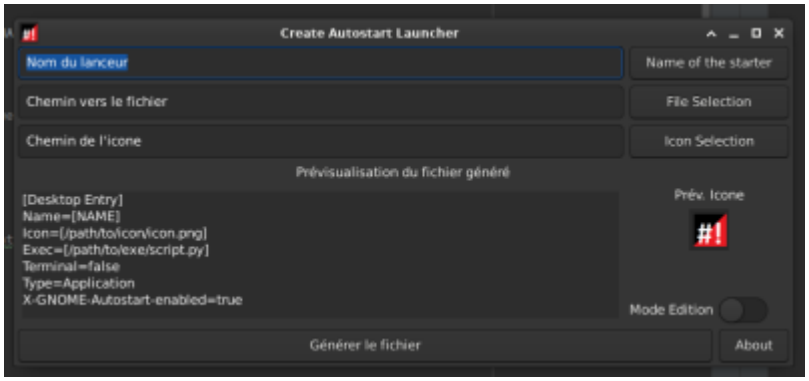
Création du fichier d'autostart dans le répertoire courant de l'utilisateur

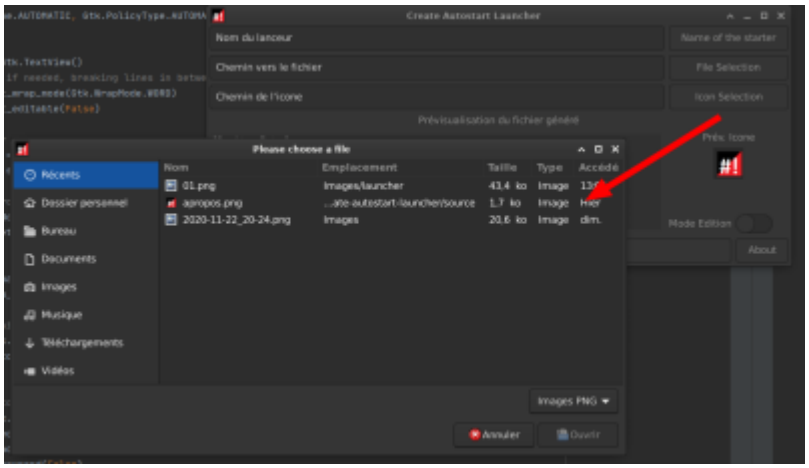
```
/home/$USER/.config/autostart/LeNomDuLanceur.desktop
```

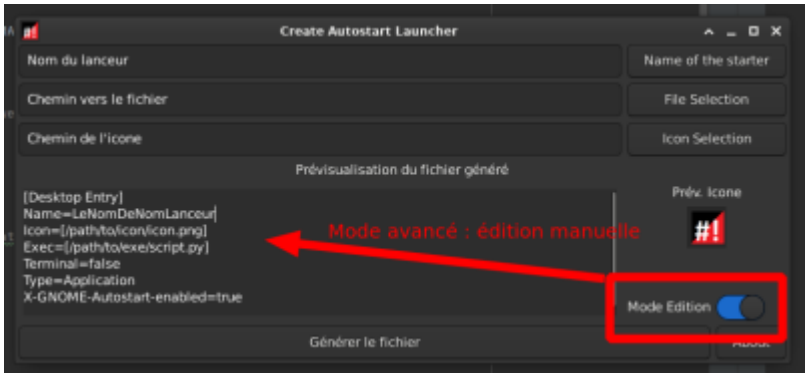
Structure de ce fichier:

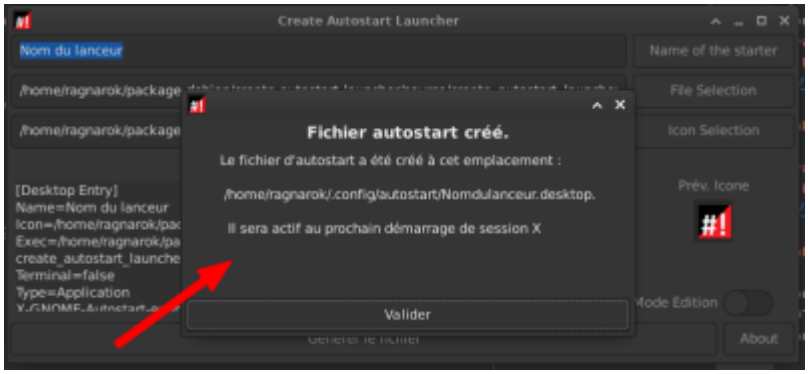
```
[Desktop Entry]
Type=Application
Name=<Name of application as displayed>
Exec=<command to execute>
Icon=<full path to icon>
Comment=<optinal comments>
X-GNOME-Autostart-enabled=true
```

Screenshoot









GIT

Attention prendre la version la plus récente du GIT

GIT : sources et packages .deb

Installation

Installation

```
wget
https://github.com/CyrilleBiot/create_autostart_launcher/raw/main/create-aut
ostart-launcher_1.2.1_all.deb

# dpkg -i create-autostart-launcher_1.2.1_all.deb
```

Au besoin

```
# apt-get install -f
```

Suppression

```
# dpkg -r create-autostart-launcher
```
